

# GENERIC RESIN DISTRIBUTION

Aaron Industries offers distribution of unmodified, generic materials, including AARO-PRIME® Polypropylene (Homopolymer / Copolymer), AARO-PRIME® Polystyrene (GPPS/HIPS) and AARO-PRIME® Polyethylene (HDPE/LDPE).

AARO-PRIME® materials are available in truckload and less than truckload (LTL) quantities for wide range of applications and end markets. Standard grades are outlined below and custom colored generics are also available upon request.

## AARO-PRIME® Virgin Polypropylene

HOPP Natural	12 Melt
HOPP Natural	35 Melt
PP NB Natural	20 Melt
PP NB Natural	35 Melt
COPP Natural	80 Melt + Antistat
CLPP Natural	35 Melt

## AARO-PRIME® Virgin Polyethylene

HDPE Natural	8-10 Melt, 960 Density
LDPE Natural	20-25 Melt
LLDPE Natural	20-25 Melt
LLDPE Natural	80-120 Melt

## AARO-PRIME® Virgin Polystyrene

GPPS Clear	2-4 Melt
GPPS	8-12 Melt
GPPS	15-20 Melt
HIPS Natural	2-4 Melt
HIPS Natural	8-12 Melt

## AARO-PRIME® Engineering Resins

ABS Natural	20 Melt, 5 Izod
PC Water Clear	25 Melt + UV + Release

# PULVERIZING SERVICES

---

Aaron Industries offers pulverizing services for commodity and engineering grade resins. Single and dual mill pulverizing is available for a wide range of applications and various lot sizes and mesh options are available as well.

## Pulverizing Capabilities

- Capacity of 10-15 million lbs.
- Dual Mill Pulverizer - mesh sizes ranging from 12, 20 and 35 (no screen option available)
- Single Mill Pulverizer - mesh size 12 & 20 (no screen option available)
- Capability to process all natural, virgin resins suited for ambient temperature processing

## Material Capabilities

- PP
- PA
- PE
- Acrylic
- PS
- Acetal
- PET
- PC
- PBT
- SAN
